

# SHEHRIYAR ALAM

## MERN Stack Developer

📞 03120246893 @ [hshehriyaram@gmail.com](mailto:hshehriyaram@gmail.com) [www.linkedin.com/in/hafiz-shehriyar-alam-4178642bb](https://www.linkedin.com/in/hafiz-shehriyar-alam-4178642bb) 📍 Karachi

## SUMMARY

I'm a passionate MERN Stack Developer with a strong focus on frontend development and real-world experience in full-stack projects. I've built an e-commerce site using React and Sanity, developed **MoneyMinder**, a full-stack finance tracker, and am currently building an AI-powered blog app using Next.js and MongoDB. I've also completed an apprenticeship at **Atlas Honda Limited**, gaining practical industry exposure. Proficient in modern UI libraries like **Shadcn UI**, **ReactBits**, **Magic UI**, and **Ant Design**, I'm now ready to contribute both frontend and full-stack services to innovative, fast-moving development teams.

## EXPERIENCE

### Telecom Technician

#### Atlas Honda

📅 08/2024 - Present 📍 Karachi, Pakistan

Currently pursuing a 3-year apprenticeship in the Telecommunication department at Atlas Honda, a renowned multinational company. Gaining hands-on experience in installing, maintaining, and troubleshooting telecommunication systems, network infrastructure, and electronic equipment. Working with industry-grade tools and technologies to ensure smooth communication operations and system efficiency.

## EDUCATION

### BS Software Engineering

#### Virtual University of Pakistan

📅 2024 - Present 📍 Karachi, Pakistan

### Intermediate (Pre-Engineering)

#### Ideal Children Secondary School

📅 06/2021 - 2023 📍 Karachi

### Matriculation (Science)

#### Pakistan Progressive Children School

📅 06/2019 - 2021 📍 Karachi, Pakistan

### Web development

#### SMIT

📅 2023 - 12/2024 📍 Karachi, Pakistan

- Successfully completed MERN Stack Development course from SMIT, focusing on building full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Gained practical experience in front-end and back-end development, RESTful APIs, state management, and deploying dynamic web apps.

## SKILLS

### FrontEnd Technologies

**ReactJs** **NextJS** **MongoDB** **Express.js** **Node.js**

**RESTful API Development** **Git & GitHub** **Typescript**

**Shadcn** **Firebase** **Cloudinary**

## PROJECTS

### MoneyMinder – Finance Tracking App

- MoneyMinder is a MERN Stack-based personal finance management tool that helps users track income and expenses with ease. It features secure authentication, dynamic transaction management, and category-based insights. Users can visualize their financial data through interactive charts and export analysis as PDF. It also includes profile customization and a responsive, intuitive UI for seamless usage.
- Live Demo : [MoneyMinder](#)
- Github Repo : <https://github.com/hshehriyaram/MoneyMinder.git>

### CARTZY – Next.js E-commerce App

- CARTZY is a sleek and responsive frontend e-commerce app built with Next.js, TypeScript, and Sanity CMS. It features dynamic product filtering, cart management with real-time totals, and a fast UI. Users can explore products by brand, discount, stock, and more.
- Live Demo : [CARTZY](#)
- Github Repo : <https://github.com/hshehriyaram/CARTZY.git>

### Full-Stack Developer Portfolio

- Developed a dynamic portfolio using Next.js 14 and TypeScript with JWT-secured admin access and responsive dark/light themes. Integrated Cloudinary for optimized image uploads and implemented content management via custom API. Included protected routes and login functionality to manage project data from an admin dashboard. Utilized modern frontend libraries (Tailwind, Shadcn, Magic UI, ReactBits) for a modular and scalable codebase.

### IntelliBlog – AI Blog App(Continue)

- Started developing a smart blogging platform using Next.js and TypeScript – currently in progress. It features AI-generated titles, summaries, and tags using OpenAI, along with text-to-speech conversion. Includes filtered comments, audio blogs, and secure authentication via NextAuth. Admin dashboard allows blog management without code.
